

# roundtable presentation

three ideas by stephen shadrach for creative coding

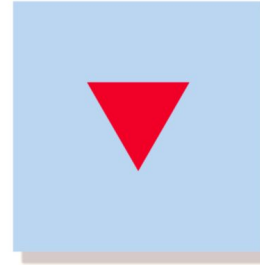

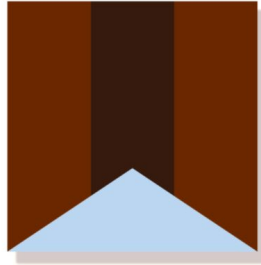

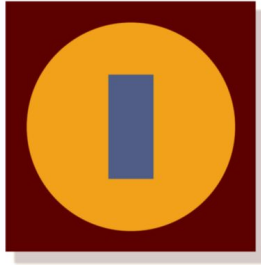

# idea 001: traversing through musical discographies

concept: transformative minimal album covers.

meaning: progression of my favorite artists' careers.

expression: appreciating different eras.

goal: effectively showcase how the eras can be connected.

kanye west's discography, minimalist edition

Notes

jay-z recreating his iconic album covers

idea 002: experimenting with sound + text + color + theme

concept: messages backed with shapes, color, and sound.

meaning: interactivity between the mind and creative.

expression: creative process.

goal: effectively express myself using code.

# PERFECT SUBMISSION ALL IS AT REST

## idea 003: color mood-board

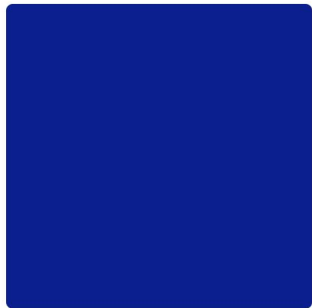

concept: choose your own adventure type game, choose between two colors to get different scenes. depending on which color you pick, your choices will differ as well. user will choose 5 color mood-boards in total.

meaning: inspiration from different colors.

expression: color can evoke different moods.

goal: to have different experiences for people who choose certain colors.
