

roundtable presentation

three ideas by stephen shadrach for creative coding

idea 001: traversing through musical discographies

interactive narrative

concept: transformative minimal album covers.

meaning: progression of my favorite artists' careers.

expression: appreciating different eras.

goal: effectively showcase how the eras can be connected.

Choose artist discography:

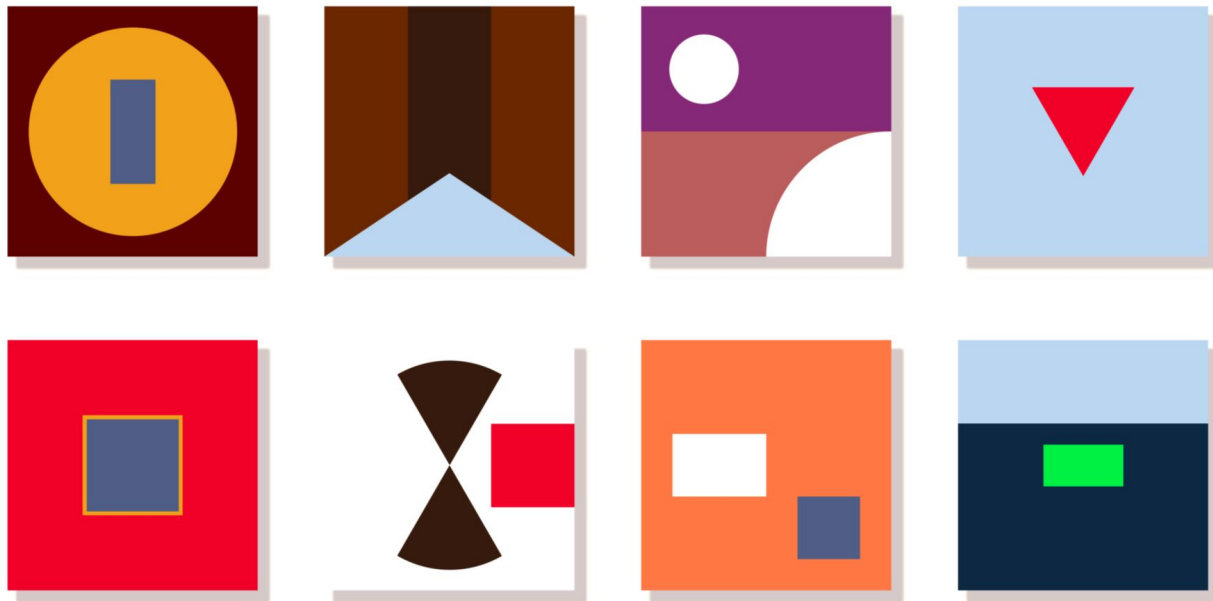

Kanye West

Tyler, The Creator

Kilo Kish

Kevin Abstract

start screen concept

kanye west's discography, minimalist edition

tyler, the creator's discography, minimalist edition

sourced at https://www.reddit.com/r/tylerthecreator/comments/e0pnj0/minimalist_tyler_the_creator_album_art_bastard/

jay-z recreating his iconic album covers

idea 002: experimenting with sound + text + color + theme

interactive narrative

concept: messages backed with shapes, color, and sound.

meaning: interactivity between the mind and creative.

expression: my current mindset, creative process.

goal: effectively express myself using code.

PERFECT SUBMISSION ALL IS AT REST

idea 003: color mood-board

choose your own adventure

concept: choose your own adventure type game, choose between two colors to get different scenes. depending on which color you pick, your choices will differ as well.

meaning: inspiration from different colors.

expression: color can evoke different moods.

goal: to have different experiences for people who choose certain colors.

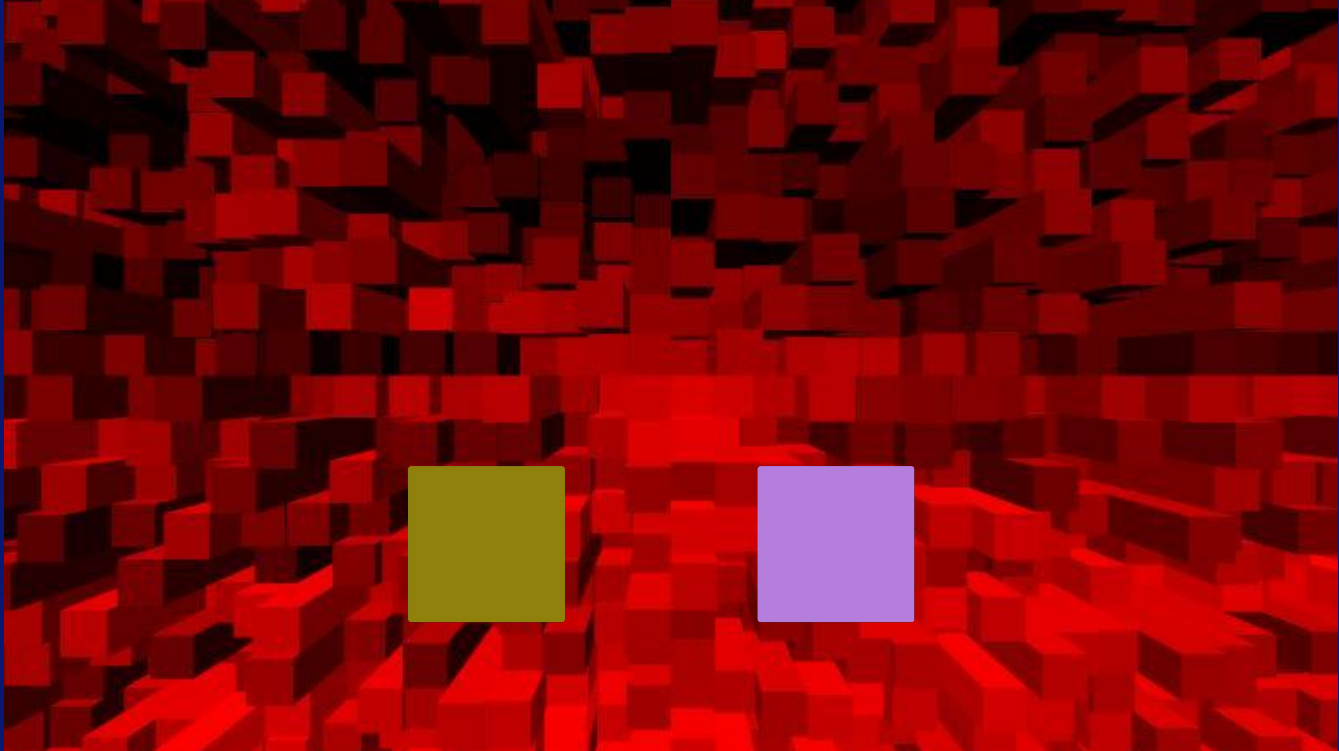

Choose color:
